

TWO-DAY TECHNICAL INSURANCE FRAUD INVESTIGATION OSINT COURSE

Methodology:

Insurance fraud cuts across every type of insurance. At one end of the spectrum, fraud may be committed by opportunists, where people encounter an opportunity to invent or exaggerate a claim or to deliberately or recklessly provide false information when applying for insurance. At the other end, there are highly organised criminal gangs. Qwarie is very experienced in this field, and our OSINT training is designed to assist you to recognise genuine claims as well as deterring and detecting insurance fraud. In this two-day course, you will have the opportunity to use & practice OSINT techniques with the guidance and assistance of our specialist trainer.

Audience:

Up to 10 participants, this training is suitable for current Insurance Fraud Specialists.

Objectives:

- Introduce & demonstrate OSINT techniques that an insurance fraud specialist can use in support of insurance claims and assessments.
- Investigate suspicious claims by checking, for example, the existence and value of goods being claimed for.
- Collect accurate information about clients.
- Investigate potentially fraudulent claims.

- Identify reasons why full payment may not be made.
- Gather and assess background information adequately evaluate cases.

Learning Outcomes: delegates will acquire:

- The ability to identify possible insurance fraud from internet research.
- Methods to gather evidence to agree, reduce or dispute a claim.
- Skills to detect, identify and disrupt fraudulent groups.
- The ability to present a compliant case to law enforcement for prosecution.
