

ONE-DAY TRAINING

OSINT FOR PUBLIC SERVICE EMPLOYEES

Methodology:

Public service activities vary depending on your local authority, department, or level of responsibility. OSINT can be used effectively during your working day to assist in many ways such as:

- Assisting in the formulation, planning and monitoring of policies and procedures.
- Providing support and guidance to the elected workforce, for example to the cabinet or local committees.
- Researching, preparing and writing up reports and briefing papers.
- Providing support and a strategic steer to the management team relevant to your specific area.
- Responding to external and internal research enquiries from colleagues, government departments, academics, local councils, regional development agencies and members of the public.

In this one-day course, our trainer will demonstrate OSINT techniques to assist you in research strategy. The course includes theory & demonstration by the trainer, of OSINT information and techniques.

Audience:

Up to 20 participants, this training is suitable for Government roles such as Managers, Civil Servants, Political Advisors, Local Government Officers, Researchers, Information Officers and anyone who frequently carries out research on the Internet.

Objectives:

- Understand how OSINT can be used as a research method.
- An awareness of various OSINT techniques for research purposes.
- Understand how to identify people on the internet pro-actively.
- Explain effective search tactics and note the pitfalls of wasteful activity.
- Introduce & demonstrate OSINT techniques to search social media.

Learning Outcomes: delegates will acquire:

- An awareness of the scale of information available on the Internet.
- Knowledge of OSINT techniques to locate accurate information quickly.
- An awareness of information available via social media.
