WORK EXPERIENCE

2016-present: Qwarie Limited – Training Executive Officer

2013-2015 British Transport Police - Force Intelligence and Cyber Crime Trainer

The only dedicated national BTP trainer/subject matter expert, specialising in teaching advanced techniques in the use of the BTP computerised intelligence system, intelligence related subjects, OSINT and social media investigations, with accreditation to teach the Police National Database (PND) and the Mainstream Cyber Crime Training (MCCT) for the College of Policing.

2005-2010 British Transport Police – Temp. Detective Sergeant, in charge of the High Tech Crime Unit (HTCU)

- Manager of the national unit ensuring best practice at all times and that new processes, technology and methods were introduced as required.
- Responsibility for managing over 1000 computer forensic examinations and over 800 mobile phone examinations to tight deadlines.
- Interviewing of new and peer review of current digital forensic examiners.
- Developed and implemented the distribution of the Aceso phone forensics suite from Radio Tactics Ltd throughout the BTP, resulting in a 90% reduction in the backlog of mobile phone examinations.
- Arranged the specification, design and implementation of new measures, equipment, processes, training and standards to support new software and tools used in the unit.
- Hands-on forensic imaging and acquisition of computers and storage media along with forensically sound examinations of computer systems and related digital media.
- Planned, advised and delivered briefings to investigating officers and senior managers prior to operations.
- Management of sensitive and high profile forensic investigations including complex cases of terrorism, fraud, forgery, graffiti, money laundering and sexual offences.
- Forensic evidential expert witness at multiple criminal trials.
- Expert in the forensic examination of computers and other digital technology; conducting seminars, conferences and training days.

2010-2013 British Transport Police - Detective Constable, Nottingham

A skilled investigator in the respect of major crime investigations, conducting and ensuring that relevant enquiries were carried out efficiently and diligently utilising appropriate skills and experience. Securing witness statements, exhibits and associated material of the required standard to support a criminal prosecution.

2000-2005 British Transport Police - Detective Constable, Field Intelligence Officer, East Midlands

Gathering and management of intelligence material through investigation, interviewing and surveillance with additional responsibility for intelligence gathering on the Potters Bar train crash enquiry.

1997-2000 British Transport Police - Detective Constable, Leicester

Dealing with significant criminal investigations including major incidents of fraud, rape and attempted murder.

1993-1997 British Transport Police - Constable, Central Operations Unit, East Midlands

Conducted crime scene and security searches, covert surveillance, major incident investigations and major public order events.

1989-1993 British Transport Police - Uniform Constable, Birmingham and Derby

Responsible for the policing of the railway network with additional role of a tutor Constable guiding probationary Constables, regular cases including the arrest of a male for rape.

1985-1989 HM Armed Forces Royal Navy - Radio Operator

A skilled operator in teletype, Morse code and voice communication, with responsibility for handling and dealing with sensitive and classified communications.
